## PRICE LIST

**SRING**  
**2015**

Pricing in effect for this season only.

Spread-X Inputs Source  
 PH, Ca, Mg, K, P, S &  
 52 micronutrients

### LIMESTONE – AGRICULTURAL

#### CONVENTIONAL FARMING

## GRAYMONT

#### GRAYMONT - Joliette Quarry

<b>HIGH Calcitic</b>	<b>\$35.00 *</b>
Calcium (CaCO <sub>3</sub> )	43%
Neutralizing Value	110%
Agricultural Limestone Index	92

#### GRAYMONT- Bedford Quarry

<b>Calcium Calcitic</b>	<b>\$39.00 *</b>
Calcium carbonate (CaCO <sub>3</sub> )	95%
Calcium	38%
Neutralizing Value	96%
Agricultural Limestone Index	87
Certified BNQ 0419-070/2011	

#### Graysol Plus **\$34.00**

Calcium in Carbon Dioxide (CaO)	37%
Calcium Total	56%
Neutralizing Value	92%
<b>100% Readily Available</b>	

### Cal.P.K.Mag

**4 in 1** **\$78.00/MT**

Calcium as (CaCO<sub>3</sub>) 56.9%  
 Phosphorus as (P<sub>2</sub>O<sub>5</sub>) 2.3%  
 Potassium as (K<sub>2</sub>O) 3.6%  
 Magnesium 17.5%  
 Neutralizing Value (CaCO<sub>3</sub>) 92%  
 Agricultural Limestone Index 94

	Cal	P	K	Mag
<b>SRC</b>	165	21	10.5	9
<b>Mag Lime</b>	264	0	0	178
<b>K Cal Lime</b>	198	4.5	29.0	6
<b>Totals lbs</b>	627	25.5	40	193
<b>Kg</b>	569	23.0	36	175

#### Contains:

52 Micronutrients	Natural NPK
Primary & Secondary Clay	Phosphate
Sulphur	Biotite
Vermiculite	Mica

**Transport and Spreading services are included in prices.**

**LIMESTONE – AGRICULTURAL cont.**

**Magnesium Dolomitic**

**Magnesium Dolomitic - K**

**\$33.00/MT**

Magnesium MgCo3 39% /Calcium as (CaCO3) 21%  
 Neutralizing Value (CaCO3) 63%  
 Agricultural Limestone Index 59

**TOMLINSON**

**Magnesium Dolomitic**

**\$35.00/MT**

Magnesium 8.9% / Calcium 20.8%  
 Neutralizing Value (CaCO3) 82.25%  
 Agricultural Limestone Index 78.5

**Magnesium Dolomitic – W**

**\$49.50/MT**

Magnesium 28% / Calcium 16%  
 Neutralizing Value (CaCO3) 132%  
 Agricultural Limestone Index 117

**Magnesium Dolomitic – M**

**\$39.50/MT**

Magnesium as 31%/Calcium as (CaCO3) 43%  
 Neutralizing Value (CaCO3) 63%  
 Agricultural Limestone Index 61

**Calcium Calcitic**

**Calcium Calcitic**

**\$35.00/MT**

Calcium as (CaCO3) 90.9%  
 Neutralizing Value (CaCO3) 93.3%  
 Agricultural Limestone Index 86.8

**Calcium Calcitic – A**

**\$32.00/MT**

Calcium 31%  
 Neutralizing Value (CaCO3) 78%  
 Agricultural Limestone Index 70

**TOMLINSON**

**Calcium Calcitic**

**\$33.00/MT**

Calcium 41.6%  
 Neutralizing Value (CaCO3) 99.5%  
 Agricultural Limestone Index 69

**Tubre-X Calcitic**

**\$42.50/MT**

Calcium 31%  
 Potassium 4-5%  
 Sulfur 1.5-2%  
 Neutralizing Value (CaCO3) 78%  
 Agricultural Limestone index 71

**\*\*All products can be purchased in TOTES or Bags of 40kg /20lbs. Please contact us for details.**

**Transport and Spreading services  
 are included in prices.**

**\*\*Prices are subject to change.**

**SOIL TESTING & RECOMMENDATION**

Soil Sampling	\$20,00 /25 acres
Soil Laboratories Analysis + Micronutrients	\$48,00/sample
Recommendation	\$30.00

**LIVESTOCK BEDDING**

**AGRIBED**

Premixed Blend of Lime & Wood Fiber

**\$85.00** 450kg bulk bags (tote)

**\$125.00/MT** Bulk

Delivery included in price

**DEHYDRATED LIMESTONE**

**GRAYMONT LKD Dehydrated Lime**

Calcium (Ca) 48%

Calcium Carbonate (CaCO3) 32%

Calcium Hydroxide (CaO) 67%

Neutralizing Value (CaCO3) 107%

Delivery included

**\$50.00/MT \$130.00/tote (1.5 ton/1400KG)**

Magnesium 0.5 %

Magnesium Oxide 0.8%

Agricultural Limestone Index 59

**For barn only**

For mixing with straw for the deep bedding.

**LANDSCAPING DEPOT/BULK**

**DECORATIVES PRODUCTS**

- Soil (Plantation., Top Soil, Top Dress)
- Sand (Beach Sand, Compaction sand)
- Compost (Certified Organic)
- Soil amendment (Agromineral- Spanish River Carbonatite, Soil Mineral Plus)
- Mulch (Cedar: Black, Dark Natural, Red, Natural, Cherry Red)
- Stone (River Wash Stone (Pea Stone ¼ to 5/8 – 5/8 – 1”)
- Crush stone (stone dust, 0-5/8, Rip Rap, 0-4”, 0-3/4”, 0-3/4” net)

Some products are also available in 20lbs /40kg bags.

Can be picked up or schedule for delivery within a 10km radius

**We are open to the public from May 1st to September long weekend.**

To set up an appointment please call 613-678-8063

# SPANISH RIVER

## CARBONATITE

TM

### BENEFITS

- \* Source of Ca, P, K, Mag an many trace minerals
- \* Extremely Reactive—Quick Results &Durable
- \* Enhances plant/microbial/mineralogical interactions resulting in soil restoration and better utilization of natural soil minerals.
- \* Corrects soil acidification and metal toxicities (aluminium) within the soil
- \* Sourced from Northern Ontario
- \* 52 Micronutrients
- \* Minor elements

### GUARANTEED ANALISYS

<u>Calcium (Ca)</u>	<u>19.50%</u>
<u>P2O5</u>	<u>3.25%</u>
<u>Potassium Total (K2O)</u>	<u>1.59%</u>
<u>Magnesium (Mg)</u>	<u>1.3%</u>
<u>Sulfur (S)</u>	<u>0.05%</u>
<u>Zinc (Zn)</u>	<u>80ppm</u>
<u>Bore (B)</u>	<u>40ppm</u>
<b>Neutralizing Value (%CaCO3 equivalence)</b>	<b>81%</b>

#### **1000 pounds contains**

P2O5 = 3.25%= 32 pounds of phosphorus  
K2O = 1.59% = 16 pounds of potassium

#### **2200 pounds (one tonne) contains**

P2O5 = 3.25% = 72 pounds of phosphorus  
K2O = 1.59% = 35 pounds of potassium

#### Organic Matter facts;

Microbiological activities in soil are stimulated, which liberates other available plant nutrients from soil minerals and organic matter. Soil scientist report that for every 1 percent of organic matter content, the soil can hold 16,500 gallons of plan soil down to one foot deep. One percent of OM is equal to 30lbs of N per acre.

**SPANISH RIVER CARBONATITE™**

**Agromineral Fertilizer**

Spanish River Carbonatite™ (SRC) is a natural agromineral fertilizer and soil conditioner, which is appropriate for use with certified organic and conventionally produced crops. SRC contains a suite of minerals, which are mined from an ancient volcanic deposit in Northern Ontario. SRC belong to the family of alkalic rocks, a very unique group of “high reactivity” rocks. The mineral constituents, sitting at the top of “solubility and reactivity series”. Alkalic rocks are characterized by rarity, high concentrations of volatiles (CO<sub>2</sub>, H<sub>2</sub>O), lithophile elements (lithophile elements are those with a strong affinity for oxygen, having a greater free energy of oxidation) and wide spectrum of mineral types, (up to 50 different types). This group of minerals includes calcium (Ca), magnesium (Mg), phosphorous (P), potassium (K), sodium (Na), iron (Fe) and sulfur (S) bearing species, which are beneficial to plant growth.

**SRC contains the following average mineral ingredients:**

(SRC is a naturally quarried product that has not been refined or altered, the following list of minerals is an average of the deposit and quantities will vary)

**65% Igneous Calcite:** A unique form of calcium carbonate, which buffers acid soils and is a source of calcium.

**12% Apatite:** Also known as rock phosphate, is a source of calcium, phosphorous. Apatite shares the same chemical composition with teeth and bones.

**15% Biotite & Vermiculite Mica:** A primary, potassium rich, high-energy clay mineral, which is the parent mineral of glauconite (greensand) and vermiculite. Vermiculite is an important high-energy clay mineral, which is widely used in horticulture.

**1.5% Magnesite:** A magnesium carbonate mineral.

**1.5% Pyroxene:** Primary mineral rich in lime, iron, silica and magnesia.

**1.5% Olivine:** A iron magnesium silicate mineral.

**1.0% Orthoclase:** A potassium feldspar mineral.

**2.0% Magnetite & Hematite:** Both minerals are a good source of iron.

**.20% Thenardite:** A sodium sulfate mineral.

**.30% H<sub>2</sub>O:** Water

**One Ton (2000 lbs.) SRC contains approximately the mineral equivalent of:**

-1200 lbs. calcite (CaCO<sub>3</sub>)

-200 lbs. apatite (Rock Phosphate) > apatite contains 35% P<sub>2</sub>O<sub>5</sub> > in 200 lbs. of apatite there are 70 lbs. of P<sub>2</sub>O<sub>5</sub>

-200 to 300 lbs. of vermiculite and biotite > in SRC there is approximately 20 lbs. of K<sub>2</sub>O per ton

-50 lbs. of Magnesium (Mg)

-80 lbs. of Sulfur (S)

-1200 ppm\* Manganese (Mn) > 2.4 lbs.

-60 ppm Zinc (Zn) > 0.12 lbs.

-10 ppm Copper (Cu) > 0.02 lbs.

-40 ppm Boron (B) > 0.08 lbs.

**Potassium content in SRC:**

Biotite is potassium mica, an excellent source of potash. When biotite weathers it releases its potassium and replaces it with water. These water molecules that lie in the structure of vermiculite when rapidly heated transform into steam causing the vermiculite to exfoliate. Exfoliated vermiculite is used in agriculture and horticulture as a soil amendment and fertilizer carrier.
